This form serves as notification that your request for athletics aid for the summer (as indicated by the session/year above) has been APPROVED. You have been granted athletics aid for the number of credits indicated above, proportionate to the amount of athletics aid you received during the regular academic year.

Since your scholarship indicates that you received:

60% Equivalency (% of full grant-in-aid)

You will receive the same proportion of the above amount towards your summer session bill.

Should you choose to register for more credits than what you have been approved for, you will be held responsible for 100% of the payment of those additional credits.

Please note that if you fail to achieve the requisite grade required to earn credit in the course or withdraw from a course that was paid (or partially paid) for by athletics, your request for future summer athletics aid may not be approved

Please sign and date below indicating your acceptance of summer athletics and your acceptance and understanding of the conditions above:
